A man who arrived from Florence to-day, brings the report that while traveling along the road in the evening he was shot at by the robber. One ball went through his hat and another through his shoulder. The holes are there to prove the story, but the hat is badly powder-burned and the ball that went through the coat was a very accommodating one. It struck him fair in the shoulder and then without touching the skin it merely pierced the cloth and passed along the inside, over and behind the shoulder till it reached a place opposite to where it entered, and there it came out .- Phenix Herald.

A. Redeuill returned yesterday morning from his trip through the territory, and reports a decided improvement in business throughout the territory since the election.
